Table 1 Status of Major Water Storage Reservoirs as of September 1, 2002 – Oldman River Basin

Reservoirs	Current Live Storage			Remarks	September 1, 2001 Live Storage	
	Volume in dam^3	Volume in acre-feet	Volume as % of Capacity		dam^3	acre-feet
Keho Lake	83,300	67,500	87	normal	77,500	62,800
Waterton Reservoir	139,000	112,000	82	normal	94,100	76,300
St. Mary Reservoir	342,000	277,000	86	above-normal	51,600	41,800
Ridge Reservoir	107,000	86,400	83	normal	31,600	25,700
Total	587,000	476,000	85	normal	177,000	144,000
Chin Reservoir	148,000	120,000	78	normal	27,700	22,400
Forty Mile Reservoir	85,600	69,400	99	above-normal	9,720	7,880
Total	234,000	189,000	84	normal	37,400	30,300
Oldman Reservoir	432,000	350,000	87	above-normal	217,000	176,000
