

WISKI Environment PRD

Report Parameters

Water Tree: All

Report Type: 1st of Month

Snow Station Type: Mountain

Report Date: April - 2013

Notes SD-SS is the Snow Depth Survey (cm) measurement.

SW-SS is the Snow Water Equivalent Survey (mm) measurement.

SW is the Snow Water Equivalent NRT (hourly, in mm) reading. The midnight value from either the 1st of the month or 15th of the month (or nearest to it within 24 hours) is queried for the 1st of month and 15th of month reports, respectively. Note that for the mid-month report, the statistics are calculated based on the monthly mean, not a mid-month mean as for survey values.

Historical statistics are based on a 30 year normal from 1981 – 2010.

--- indicates data is not available.
